

SEEKING DAYLIGHT

Seeking Daylight is a graded stakes winner who captured the grade two Brooklyn Handicap by more than eight lengths. He is a son of Seeking the Gold – whose sons Petionville, Mutakddim, Cape Town, Dubai Millennium and Secret Savings all have grade one winners in their first crops. He is out of a stakes winning and grade one producing mare from the family of hot young sire, Touch Gold.

As a son of Mr. Prospector we might expect Seeking the Gold to do well over **Northern Dancer** line mares, and, in fact, there are already 34 stakes winners, ten of them group or grade one, on a Seeking the Gold/Northern Dancer cross. Northern Dancer strains which particularly appeal here are **Nijinsky II**, **The Minstrel**, **Storm Bird** (sire of **Storm Cat** and **Summer Squall**), **Danzig**, **Lyphard**, **Dixieland Band**, **Deputy Minister** and **Sovereign Dancer**.

Seeking the Gold and his sons have begun to cross very well with **Seattle Slew** line mares, including through through **Capote**, **Slew o' Gold**, **Seattle Song**, and **Slewacide**. **A.P. Indy** line mares should also be good. In addition to Seattle Slew, Seeking the Gold and his sons have already sired stakes winners out of mares descending from **Bold Ruler** through **Spectacular Bid**, **Secretariat** and **Raja Baba**.

Seeking Daylight looks likely to work well with the **Turn-to** via **Cox's Ridge** and **Cyane**, and with Turn-to's son **Hail to Reason** through **Halo** and **Roberto**.

Seeking the Gold is out of a mare by Buckpasser, and there are already seven stakes winners by Seeking the Gold and sons out of mares giving inbreeding to **Buckpasser**. Bring Buckpasser in through sons, or through the numerous stallions which are out of Buckpasser mares.

Other strains which appear likely to work here are **Alydar**, **Pleasant Colony**, **Flying Paster**, **Blushing Groom**.
